What participants have to say about this workshop:

“I was a little hesitant to attend your presentation skills workshop at first. After the first participatory session I quickly realized that I was learning skills that will be beneficial not only in seminar situations, but in everyday one on one appointments as well.”

Mark Kopkin – UBS

“This was not a lecture or seminar. What made this workshop different, and what made it work, was everyone participated! I learned skills I could put to use immediately and use the rest of my life.”

Derek Winegard – Financial Advisor

“The video replay aspect of your program places it above any communicative skills workshop I have taken or looked into. I am a much more confident speaker now that I have taken the course.”

Jacques Aebli III – Planned Management Corp.

“I have been attending corporate seminars arranged by AT&T for about 10 years now, and none were more exciting than or as mentally stimulating as yours. In selling my product, I have to communicate concisely in face-to-face sales contacts every day. It is important that I make each phrase count. I found the ideas and techniques both enlightening and on target. It raised my confidence level and made selling a little bit more fun.

Martin Sondey – AT&T

“I have spoken in courtrooms as a trial lawyer as well as before groups as a seminar lecturer. Your workshop was fun. I obtained a lot of good, useable information in a very short time.

James Willingham – Attorney
